

Severe Respiratory Infection (SRI) Information Gathering

Priority Dispatch Corporation

Updating ProQA SRI Info

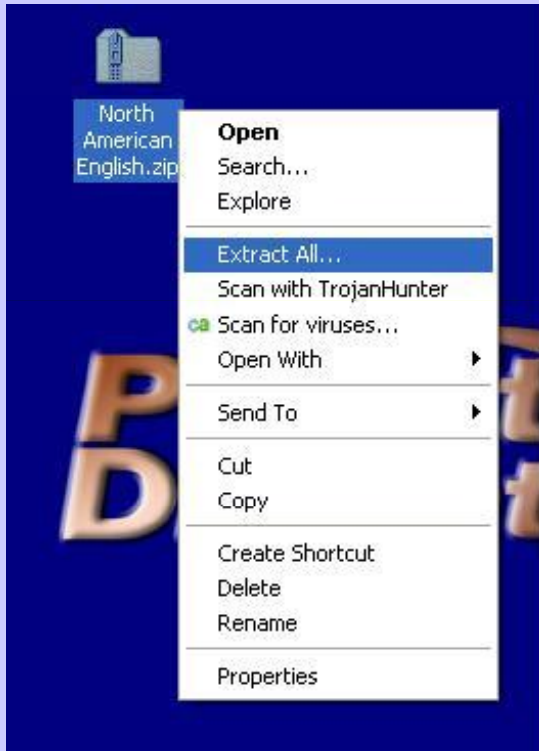

- To apply the SRI update: Locate the Cewin.mt__ file (Cewin.mt0 in screenshot) in your C:\ProQA.Win\Data directory. Note the filename then rename it to Cewinold.mt__

Updating ProQA SRI Info

- Open the SRI FTP site and download the appropriate file to your computer.
- To request FTP access visit http://www.prioritydispatch.net/support/form_ftp.php

Updating ProQA SRI Info

- Extract the file, check that the Cewin.mt__ file matches the name you noted earlier, then place the file in the Data directory (C:\ProQA.win\Data) .

SRI Information Gathering

- Use the Severe Respiratory Infection (SRI) checklist located on the toolbar in ProQA.
-  Activates the SRI Checklist

Severe Respiratory Infection (Swine Flu) Sympto...

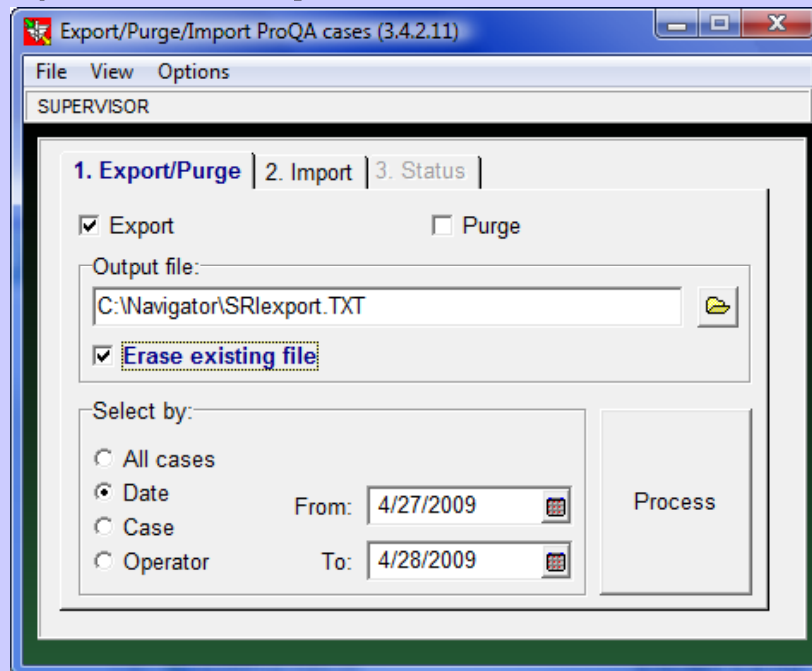

Cancel Info Completed →

Listen carefully and tell me if s/he has any of the following symptoms

- difficulty breathing or shortness of breath
- persistent cough
- measured body temperature > 100° F (38° C)
- chills
- unusual sweats
- hot to the touch in room temperature
- body aches
- sore throat
- nasal congestion (blocked nose)
- runny nose
- contact with someone with the flu (or flu-like symptoms)
- traveled recently (if so, where?)

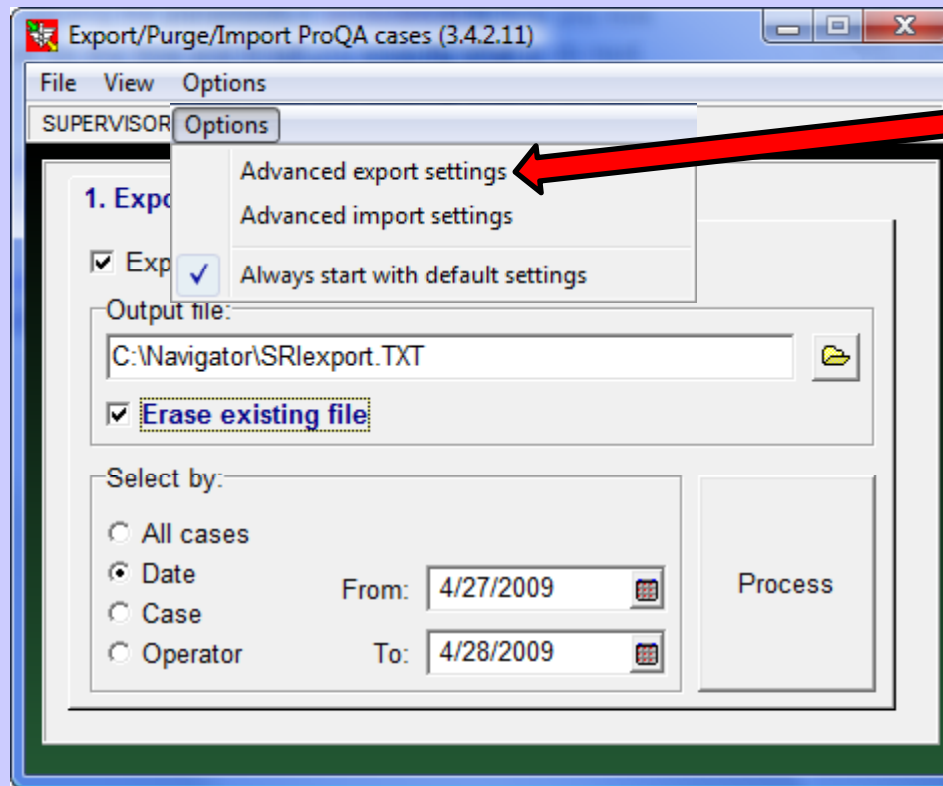

SRI Information Gathering

- Open the ProQA Export/Purge/Import Utility
- Create a file location for your data.
- Name the File SRIExport-Agency Name-City-State (SRIExport- CharlestonEMS-SC.exp)

SRI Information Gathering

- In the menu, select “Options” then “Advanced Export Settings”

SRI Information Gathering

- Select “Default ProQA” then select “OK”

SRI Information Gathering

- Ensure you select your date ranges and then select “Process”

Export/Purge/Import ProQA cases (3.4.2.11)
